M. HENRY KNOX,
Librarian.

REPORT OF WATER COMMISSIONERS.

Early in the spring of 1916 it became evident that something was wrong with the town water supply, as the pressure was noticeably less than when the water was first turned on. A subsequent investigation revealed the fact that the joints in the iron pipe at the river crossing, near Bombay bridge, had pulled apart and allowed the water to run into the river. It became necessary to take all of the pipe out of the river and put in a solid foundation for it to rest on, so a crib was made with large timbers and weighted down with rocks, nearly one hundred two-horse loads being used. The water pipe was then relayed and no further trouble is looked for from this source.

During the time that the repairs were being made, the town was entirely dependent on Bear Hill Pond for service, which fact has demonstrated to the commission the desirability of an auxiliary source of supply to a water system.

After the difficulties at the river had been overcome there was a constant demand from new patrons to be supplied with water, so that now the number of new takers will exceed one hundred, and with numerous other additions that have been called for during the winter it is evident that the future earnings of the system will take care of all necessary expenses.

At the close of the fiscal year, ending February 15, 1917, there was a balance in the hands of the treasurer of \$3,854.22 which amount is \$657.94 greater than the balance of the previous year, and, as none of the bonds will become due until the year 1924, \$2,000 has been used to start a sinking fund, which will be kept to meet the first payments when the ten-year bonds mature.

AUDITORS' REPORT.

This is to certify that we have examined the accounts of Fred W. Saltmarsh, secretary of the Pembroke Water Commission, and find the same correctly cast and properly vouched.

GEORGE T. HILLMAN,
 BURT D. ROBINSON,
Auditors.

REPORT OF THE SCHOOL BOARD.

The beginning of the fall term on the second Monday in September—one week later than formerly—with the usual vacations, has given but thirty-four weeks of school from March 1 of last year to March of this year, but the spring term will be begun a week earlier than heretofore and give the usual thirty-five weeks in the state school year which ends July 15.

The schools during the year have been unusually free from interruption by sickness and good progress has been made.

In July, Frank T. Cheney, senior member of the board, resigned because of illness and his death occurred a few weeks later. Mr. Cheney had maintained a genuine interest in all school matters throughout his thirty years' residence in town, and was serving the last year of his third term as a member of the board. George W. Fowler was appointed to the vacancy.

Beginning with September, only ten schools have been conducted, five in the village building and five rural, the Borough being closed because the number of pupils there was but two; they have been conveyed to North Pembroke.

For matrimonial or other reasons, an unusually large number of teachers declined re-election at the close of the spring term. Six vacancies were filled with teachers holding state certificates. The names of all teachers and their locations are to be found in the financial report. It is our conviction that school work never suffered less from changes in teaching force, and gratifying results are seemingly being achieved in all our school rooms. In accord with the vote of the district, a special teacher for music and drawing has been employed. Her report of the work is printed herewith.

The supervisory district with Allenstown and Merrimack has been continued, and Henry S. Roberts was re-elected superintendent, and the contract was made for three years.

As shown by the appended statistical table, the total number of pupils enrolled has been larger than formerly. There were a sufficient number in the seventh grade at both the Pembroke Street and Brickett schools to make the class work effective, and such pupils have been continued in those rooms rather than sent to Suncook, also ensuring a considerable saving in transportation expense.

As heretofore, such repairs have been made at the several school buildings as seemed desirable to preserve the property and keep conditions wholesome and comfortable. The most extensive outlay was at Buck Street, but painting was done at all of the buildings except two.

The situation as to the old school building at Suncook as to which attorneys for the Morgan heirs preferred claim, remains unchanged. Their notice to the district was not to meddle with the building. The property was, however, suffering such injury from want of reshingling that the work has been done this year by the district at the request of their attorneys. The expense was about \$225. It was agreed that such cost should be taken into account when final settlement was made, negotiations for which are still pending.

The pupils of the Suncook school, with the liberal assistance of parents and friends, have exchanged the piano that has been in use by the school for about fifteen years for another of later make and capable of giving better service.

Under the state aid school law, the district is required to raise by taxation for school purposes about \$8,100, falling short of which definite amount it will fail to qualify. Such minimum amount, with the other receipts from tuition, dog tax and literary fund, has made it possible to conduct the schools as they have been, pay the maturing bonds, high school contract, etc., and leave a fair margin for emergencies.

The amount of money needed for the ensuing year is thus estimated:

Interest on bonds,	\$262.50
To pay bond,	1,000.00
Pembroke Academy, contract,	1,500.00
Teachers' salaries,	4,200.00
Text books and supplies,	450.00
Repairs,	400.00
Fuel,	550.00
Janitors,	450.00
Conveying pupils,	450.00
Superintendent's salary,	850.00
District officers' salary,	216.00
Water service,	53.00
Cleaning schoolhouses,	52.00
School census,	15.00
Miscellaneous bills,	100.00
	\$10,548.50

The receipts for the same period, exclusive of the amount that may be raised at district meeting, is thus estimated:

Balance in treasury,	\$781.92
School money required by law,	3,622.50
Literary fund,	249.78
State aid, average attendance,	315.00
State aid, qualified teachers,	712.00
State aid, one-half superintendent's salary,	425.00
Dog tax,	100.00
Tuition,	250.00
	\$6,456.20

GEORGE W. FOWLER,
 METTA G. LANE,
 EMILY M. MARTIN,
School Board.

FINANCIAL REPORT.

Receipts.

The financial report of the school board of Pembroke for the year ending March 2, 1917, is:

Balance from previous year,	\$504.63
Raised as law requires,	3,622.50
Raised above such amount,	1,036.50
Raised to pay interest on bonds,	297.50
Raised to pay bond,	1,000.00
Raised to pay high school tuition (contract),	1,500.00
Raised for books and pupils' supplies,	450.00

AUDITOR'S REPORT.

I hereby certify that I have examined the foregoing accounts of the school board of Pembroke and found them correctly cast and properly vouched, and a balance in favor of the district of \$781.92.

CHARLES B. ROGERS,
Auditor.

PEMBROKE, N. H., February 24, 1917.

REPORT OF TREASURER.

Amount received from February 21, 1916, to February 24, 1917,	11,301.37
Paid from Order No. 1 to Order No. 126,	10,519.45
Balance on hand,	\$781.92

Respectfully submitted,

FLORENCE WALKER BATCHELDER,
Treasurer.

AUDITOR'S REPORT.

I hereby certify that I have examined the foregoing account of the treasurer, Florence W. Batchelder, and find the same correctly cast and properly vouched, and a cash balance in her hands of seven hundred eighty-one dollars and ninety-two cents.

CHARLES B. ROGERS,
Auditor.

PEMBROKE, N. H., February 24, 1917.

REPORT OF THE SUPERINTENDENT.

To the School Board of the School District of Pembroke:

I herewith submit my fourth annual report as superintendent of the schools of Pembroke.

Attendance.

The attendance of the pupils has improved. The rule adopted by the school board for regulating the attendance of pupils who would attend for a time the public school and then change to the parochial school or *vice versa* explains, in part, the improvement. These changes are not now made after the first two weeks of the term. In the past we have had as many as twelve changes by the same pupils in one year. Those in authority at the parochial school also desired this change and appreciate its benefits.

The employment of the same truant officer by both school districts has resulted in a much better attendance. Our truant officer, Mr. Ludlow, is faithful and efficient in the discharge of his duties. The greater desire on the part of the pupils for better attendance and better conduct is most praiseworthy.

Work Accomplished.

The improvement in the work of schools for the year last past is most commendable. The teachers, faithful and industrious, are working in harmony and well.

The employment of a special teacher of music and drawing, by the school board, marks an important step in the improvement of the Program of Study. These subjects provide means for training the senses, "important features in the outfit of every human being who means to be cultivated, efficient, and rationally happy." Dr. Charles W. Elliott, the foremost educational leader in America, said,

"The most important part of education has always been the training of the senses."

We are following, as far as conditions will permit, the Program of Study outlined by the Department of Public Instruction. It is our purpose to follow it more in detail as conditions change.

Our monthly teachers' meetings have been well attended. The time has been devoted to the general discussion of the subjects in the Program of Study. The teachers come to these meetings well prepared and freely discuss each subject.

Report Cards.

Report cards are sent to the parents or guardians of all pupils five times each year. These report cards give the pupil's rank in his studies, conduct, effort, instances of tardiness and half-days' absences.

The rank marks are as follows: 1, excellent; 2, good; 3, fair or passable; 4, unsatisfactory; 5, very poor.

A careful examination of the pupil's report card will tell the parent what the pupil is doing and how he is behaving. I urge parents to investigate immediately any unsatisfactory mark (4), by conferring with the teacher.

Savings Bank Accounts.

Pupils in the Suncook school have started savings accounts at the Suncook bank. Thirty-four pupils have deposited \$52.13. We encourage this practice and hope the pupils of all our schools will start personal accounts with the bank for by so doing the habit of saving will be formed.

For further information I refer you to the appended reports.

In conclusion I wish to express my appreciation to the citizens, school board, teachers and pupils for their cordial support.

Respectfully submitted,

HENRY S. ROBERTS,
Superintendent.

MUSIC AND DRAWING.

To the Superintendent of Schools, Pembroke, N. H.:

The aim of the music work this year has been fourfold: to develop a love of singing and good music; to cultivate a good tone quality; to teach as much of theory as is necessary for the sightsinging of the grade; and to teach the children to sing easily and intelligently the music suited to the grade.

The work of the lower grades has been based upon the song, rather than upon scales and exercises, the development of the mind of the child and its interests being carefully considered. The drill work has come in the middle and upper grades.

The results of the work show a decided progress toward the fulfillment of our aims.

The aims of the drawing course have been no less definite. The first is to train the child to see accurately all that comes within the sphere of his observation, and second to cultivate the ability to reproduce with pencil, crayon or brush what he has seen, or whatever he may desire to express. The work has included object, illustrative and nature drawing, cutting, color and design. The results obtained from the drawing classes have been very satisfactory.

Every school has been visited each week. The teachers have given their hearty co-operation in the work and deserve much of the credit of the results.

Respectfully submitted,

ESTHER PEABODY,
Teacher of Music and Drawing.

TRUANT OFFICER'S REPORT.

To the Superintendent of Schools:

During the last year I have found less cases of real truancy than in former years. Some parents, although few in number, still try to evade the attendance law. It has been my aim to instruct parents in the meaning of the law and to avoid, if possible, arrests.

The Suncook Mills, Bailey Lumber Company and Artistic Webbing Company have heartily co-operated with me in carrying out both the spirit and letter of the law.

I have had at all times the helpful assistance of the superintendent of schools in the discharge of my duties.

To the officers of the above corporations, members of the school board, and to the superintendent I express my thanks for their cordial support.

C. H. LUDLOW,
Truant Officer.
